About Collections 3 & 4

Collection 3 – DIVERSE SOUNDS - an inclusive palette of music using soothing and healing sounds from specific ethnically diverse world cultures. Rather than familiar songs, familiar cultural sounds written as new music are what creates associations.

Collection 4 – BOOMER TRACKS - showcases music from the '50s, '60s and '70s, popular music of the Baby Boomers, a generation of people born between 1946 and 1964 who have a strong connection to politics, Woodstock, rock and roll.
